

COVIDIEN

positive results for life™

ForceTriad™ Energy Platform

KEY FEATURES

- TissueFect™ sensing technology is a Valleylab™ control system designed to precisely manage energy delivery, creating a range of options for desired tissue effect
- Enhanced LigaSure™ tissue fusion technology permanently fuses vessels up to and including 7 mm, lymphatics, pulmonary vasculature and tissue bundles
- Automatic instrument recognition
- All-in-one unit is compatible with conventional electro-surgical instruments and all current and new LigaSure™ instruments
- Fusion cycles are faster than the original LigaSure™ vessel sealing generator
- Valleylab™ mode provides a unique combination of monopolar hemostasis and dissection

BENEFITS

- Easy to use touch screen setup
- Reduces demands on staff during procedures
- ForceTriad™ energy platform provides the surgeon improved tissue effect with consistent power delivery
- Valleylab™ mode provides equal or superior hemostasis versus standard Cut or Blend
- Surgeons can potentially shorten their O.R. procedure time by having control of power and mode adjustments from the sterile field

OVERVIEW

Covidien, the world leader in electro-surgery for more than forty years, has integrated its latest advancements in the next generation electro-surgical device.

The Force TriVerse™ electro-surgical device allows you to access the Valleylab™ mode for a unique combination of monopolar hemostasis and dissection while using a lower power setting resulting in less char, less thermal spread and less arcing than a traditional Coagulation mode.

It is designed with you, the surgeon, in mind and offers a range of options at your fingertips for precise control and tissue effect.
